

運用多元憑證，縱跨多重平台 Utilizing diverse certificates across multiple platforms

漢龍規劃的PKI(Public Key Infrastructure)

考量到應用系統跨語言、跨平台的需求，提供了完整的PKI解決方案，協助客戶及夥伴建立可信賴的安全環境，確保資訊流通的安全性、完整性、保密性及不可否認性。

In consideration of the needs for cross language, cross platform applications, PKI(Public Key Infrastructure) provides a complete PKI solution to assist clients and partners in building a reliable, secure environment and to ensure the security, integrity, confidentiality and non-repudiation of information circulation.

完整系統架構 Complete system structure
